

**Certified Collision Repair Program (CCRP) and Certified Collision Industry Accreditation Program (CCIAP) are independent Canadian collision shop certification programs for all vehicle manufacturer types. They are managed by the Automotive Retailers Association BC (CCRP) & nationally by AIA Canada (CCIAP). Certified shops are put through an audit process yearly, where they must achieve a high level of training with I-CAR, have the latest in OEM recommended repair equipment, as well as access to all OEM repair procedures in order to be fully accredited with these programs. All accredited shops offer a lifetime warranty on insurance repairs.**
